

May 7, 2007

Dear Parents,

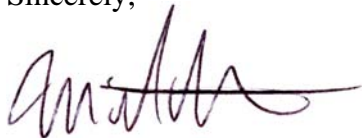

The High School staff would like to officially welcome you to the High School for the 2007-2008 school year. Each year we host a special orientation for you, next year's parents of 9<sup>th</sup> graders, to introduce ourselves and share with you important information about high school. This orientation will be on Tuesday, May 15 at 8:00 p.m. in our auditorium.

We consider the partnership between parents and educators to be one of the most important factors in our students' success. Our mission in the High School is to provide an academically diverse curriculum that prepares students for admission to top US and Mexican universities and to help develop independent, creative, caring, and self-motivated individuals with a lifelong passion for learning. We are looking forward to working closely with you and your child to provide the highest quality education possible.

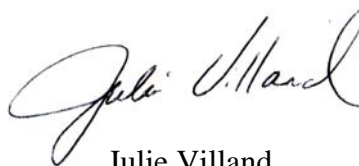

The week following this meeting, your child will receive a course selection form from Julie Spiesel, our counselor. Ninth graders do not have many options for courses, but they should start considering course selections for future years to ensure the best opportunities for entrance to top universities. Any questions about course selections can be addressed at this meeting. A copy of the catalog can be found on our high school webpage or by clicking [here](#). Please feel free to contact us at any time (3817-3377 or [david.mcgrath@asfg.mx](mailto:david.mcgrath@asfg.mx)).

On-campus parking is available through the Filadefia entrance. We hope to see you at this meeting.

Sincerely,

David McGrath  
Principal

Julie Villand  
Assistant Principal
